TECH STACK

- Frontend: React, Next.js, TypeScript, Angular, JavaScript.
- Backend: C#, ASP.NET, .NET, Java, Node.Js, REST APIs.
- Mobile: ReactNative, Android, Kotlin.
- Databases: SQL, PostgreSQL MongoDB
- Cloud & DevOps: Azure DevOps, Git, CI/CD, Kubernetes.
- Also: SharePoint, Shopify, PHP.
- Apply LLMs, agents and IA assisted development with Cursor, ChatGPT, Claude and automate workflows with n8n

ABOUT ME

Systems Engineer and Full Stack Developer with 4+ years of experience building enterprise web applications, REST APIs, and mobile applications. Specialized in React, TypeScript, Next.js, and Angular on the frontend, and in C#, ASP.NET, .NET, Java, and Node.js on the backend. On mobile, I develop with React Native, Android, and Kotlin. Experienced in SQL, PostgreSQL and MongoDB , system integrations, Git, and CI/CD on Azure DevOps. I deploy web applications through pipelines using Kubernetes and ArgoCD.

EXPERIENCE

- **FULL STACK DEVELOPER**

Human Group | (2022 – Present)

- Design and develop web applications and reusable interfaces with React, TypeScript, Next.js, and Angular.
- Build and maintain backend services and REST APIs with C#, ASP.NET, .NET, Java, and Node.js.
- Develop mobile applications with React Native, Android, and Kotlin.
- Design SQL and PostgreSQL data structures and connected them to web and mobile applications.
- Deploy web applications through CI/CD pipelines on Azure DevOps, using Kubernetes and ArgoCD.

ACADEMIC TRAINING

BACHELOR OF SCIENCE IN SYSTEMS AND COMPUTER ENGINEERING

DOMINICAN UNIVERSITY O&M | (2018 – 2022)
