SUMMARY

Software Engineer with 4+ years building enterprise web applications, REST APIs and integrations for insurance operations at Grupo Humano. Day-to-day stack: React, TypeScript, C#/.NET, Node.js, SQL and Azure DevOps CI/CD. Also ships independent products that connect web apps, PostgreSQL, WhatsApp and automation.

SKILLS

Core: React, TypeScript, Next.js, Angular, JavaScript, C#, .NET, Java, Node.js, Express, SQL, PostgreSQL, REST APIs, Azure, Azure DevOps, Git, CI/CD

Additional: Shopify, SharePoint, Android, Kotlin, PHP, Selenium, Javalin, n8n, AI-assisted development

EXPERIENCE

Programmer Analyst Jul 2022 — Present

Grupo Humano (Humano Seguros) · Santo Domingo, Dominican Republic

- Build and maintain enterprise web applications used in insurance operations.
- Deliver interfaces with React and TypeScript, and backend services and REST APIs with C# / .NET.
- Integrate SQL databases and external REST services into those applications.
- Release through Azure DevOps CI/CD, with code quality checks in SonarQube.
- Troubleshoot production issues and collaborate in Agile/Scrum teams.

SELECTED PROJECTS

BarberOSS — business management SaaS barbeross.netlify.app

Appointments, clients, schedules, income tracking, reports, WhatsApp integration and PDF/Excel export. React, TypeScript, Node.js, Express, PostgreSQL.

RDIntelligence — open-data web app

Helps residents and visitors explore places and public information in the Dominican Republic, using weather, maps, natural events and open data from Open-Meteo, NASA EONET, USGS, OpenStreetMap and the World Bank. React.

Business websites

Sites for local businesses, including Farmacia La Hoz, Farmacia Maireni and AbbaTech, with WhatsApp as the contact channel. Farmacia La Hoz · Farmacia Maireni · AbbaTech
